New Delhi, May 15, 2011: Religare Enterprises Limited (REL), a leading emerging markets financial services group, today announced its fourth quarter and full year FY11 unaudited financial results. The company reported total operating income of ₹10,330 millions for Q4 FY11, an increase of 96% over Q4 of FY10. For the full year, total operating income was at ₹28,461 millions up 71% over last year.

Mr. Shachindra Nath, Group CEO, REL said, *“During FY11, Religare has made significant progress in building out its new businesses. We have brought on board some exceptional talent to strengthen our Emerging Markets Investment Banking business and have given concrete shape to our Global Asset Management Platform. Our Investment Banking business remains in investment mode and in the Global Asset Management business, we have made a couple of acquisitions and are focussing on the build out of distribution capabilities. In the second half of the year gone by, we saw some softness in the India business owing to pressure points in the financial markets, but the India story structurally remains intact.”*

Consolidated Business Highlights

In Q4 FY11, the company has posted strong revenue growth: 44% QOQ and 96% YOY. The diversification of revenue continues, with greater contribution from the lending business and revenue from the Global Asset Management business kicking in. The company has made a tax provision of ₹61 million in Q4 FY11 in spite of a consolidated loss because REL’s businesses are structured as separate legal entities.

Proposed Rights Issue

On May 6, 2011, REL has filed with the Securities and Exchange Board of India, a Draft Letter of Offer for issue of further shares to existing shareholders on a rights basis, for a total issue size of up to ₹8,000 million, with the option to increase the size of the issue by up to 10%. The proceeds of the issue will be utilized for making further investments in some of our subsidiaries and joint ventures and for general corporate purposes.
